# Gyamfi Michael

## Summary

I am a dedicated freelance web designer, full stack web developer, python programmer and a mobile app developer open to a lot of opportunities that come my way. I am very consistent and determined when it comes to achieving what i want. I do not give up just because answers are hard to find. I am a very active person and work very well under any given circumstances once they do not have a negative impact on me. I am very good when it comes to working with teams and I have been doing that in my freelancing career a lot.

---

## Work Experience

### Freelance Web Designer

2020 - Present

Using Figma and Adobe tools I have freelanced in designing websites for a number of clients. I have the ability to come up with designs or work on designs provided to me within the time frame expected

### Full Stack Web Developer

2020 - Present

I am a full stack web developer with skills in front-end technologies and using Django and Flask as well as database systems like MySQL and Postgres to develop web apps for clients that cross path with me. I am also a fully fledged Python developer.

### Mobile App Developer

2021 - Present

I am also a Google's Flutter Mobile App Developer developing Android and iOS app for personal and on large scale use.

### Python Programmer

2020 - Present

I am python programmer specialized in the language's features and a lot related to the language like automation, data science, web development and writing plain python programs
